SUMMARY

Software engineer with 4 years of experience building web applications with Ruby on Rails, React, and Next. Experienced in backend systems, API integrations, open banking, and production Rails upgrades. I enjoy working with Ruby and Rails and have contributed to well-known open-source projects.

EDUCATION

LNCT, Indore - B.Tech in Computer Science | Aug 2020 – Jun 2024

School For Excellence, Khargone, MP – Secondary Level (PCM) | Jul 2018 – Mar 2019

EXPERIENCE

Software Engineer | March 2025 – Present · CodeNote IT Solutions, Indore

- Led production Rails upgrade from 6.1 to 8.0.1 for [Kreditz's](#) external API, ensuring zero-downtime migration.
- Built custom lending flows and credit scoring pipelines by processing user bank transaction data.
- Integrated financial dashboards consuming Fortnox and Visma APIs for real-time accounting data.
- Built [MyWearToday](#), an AI-powered digital closet with virtual try-on and RAG-based outfit recommendations.
- Migrated [TeamDriveaway](#) from a legacy CMS to Astro and Sanity, including content schemas and GROQ queries.

Associate Software Engineer | Mar 2023 – Feb 2025 · Codenote IT Solutions, Indore

- Integrated [Yapily](#) alongside Klarna to ensure uninterrupted access to banking data during third-party outages.
- Integrated OAuth 2.0 for secure client authentication and webhook data delivery.
- Implemented PDF certificate generation using Wicked PDF.

Software Engineer Intern | Sep 2022 – Feb 2023 · CodeNote IT Solutions, Indore

- Implemented two-factor authentication using ActiveSupport::Otp in a Rails application.
- Integrated International Telephone Input plugin for international phone number validation.

TECHNICAL SKILLS

Languages: Ruby, JavaScript, TypeScript, SQL

Frameworks: Ruby on Rails, React, Next.js, Hotwire, Astro

Databases: PostgreSQL, MySQL, Redis, pgvector

AI: RAG, Embeddings, Vector Search, Gemini API

Infrastructure & Backend: Docker, AWS, REST APIs, Webhooks, CI/CD, Sidekiq, Inngest

Frontend & CMS: Tailwind CSS, Radix UI, Sanity CMS

Developer Tools: Git, GitHub, Claude Code, Opencode, Codex

PROJECTS

CodeKata | Ruby on Rails, Hotwire, PostgreSQL Apr 2024 – Present.

- Built a real-time Ruby coding platform with live code execution and output rendering.
- Implemented shareable rooms for collaborative coding sessions.
- Added challenges and a Q&A system with voting.

AI Thumbnail Generator | React, TypeScript, Gemini Nano Banana Aug 2025 – Present

- Built an AI-powered thumbnail generator that creates contextual designs from uploaded images and prompts.
- Added support for 16:9 and 9:16 formats for YouTube and short-form content.

OPEN SOURCE CONTRIBUTIONS

Ruby for Good: Human Essentials

- [PR #4215](#) - Fixed form field reset issue, ensuring data consistency.
- [PR #4163](#) - Added validation to prevent negative quantities for kit items.

Rails: Website

- [PR #236](#) - Corrected grammatical inconsistencies in the documentation.

Moneygun: White-label SaaS Boilerplate

- [PR #286](#) - Implemented a full in-app notification system using the Noticed gem, including delivery logic and real-time Turbo Stream updates.

Enable Banking: Open Banking EIDAS Broker

- [PR #60](#) - Corrected port configuration.

KlinikCon: Healthcare Platform

- Open-source healthcare web application; contributed to both [KlinikCon-Frontend](#) and [KlinikCon-Backend](#)

ACHIEVEMENTS

- Star Performer of 2024
- Creative Thinker of the Quarter.

LICENSES & CERTIFICATIONS

- [Claude 101](#) - Anthropic Education | Apr 2026
- [AI Engineering with Java and Python](#) - Telusko
